

"APARCERÍA"

The "*aparcería*" contract is the one by which the owner of the rural plot asks to a natural person the farming working of that land in order to receive a percentage of the results in exchange.

After the sign of the contract it was usual to have a glass of wine or a beer at any local pub. From that we maintain the term "*aparcería*" defining the fact of going to have a beer and some appetizers to our town local pubs. That became all a tradition.
